

HARLEY STREET PHYSIOTHERAPY GROUP

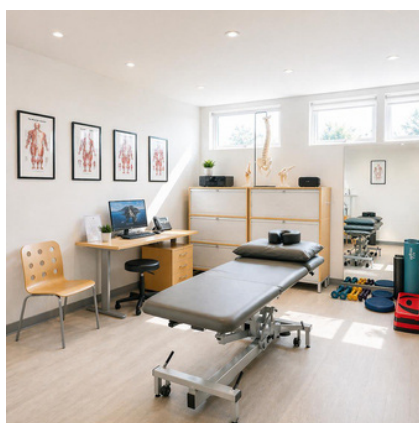

ABOUT US

Harley Street Physiotherapy is a leading physiotherapy group that brings together four renowned clinics: Harley Street Physiotherapy, Lousie Jewers Physiotherapy in Chiswick, Sprint Physio, Kensington and Harley Street Physiotherapy at The Portobello Clinic. With a strong reputation for excellence, the group provides expert physiotherapy and rehabilitation services across its locations, offering tailored treatments for musculoskeletal conditions, sports injuries, and post-surgical recovery. Their highly experienced team of physiotherapists utilises cutting-edge techniques to deliver personalised care, ensuring optimal recovery and longterm patient wellbeing. The team works with referrers in London's leading private hospitals and medical groups and is compatible with major private medical insurers.

Harley Street Physiotherapy offers a range of physiotherapy services for both private and embassy patients, which can be accessed by contacting our Wimpole Street or Kensington clinic directly to arrange a consultation. Our physiotherapy department likely handles a variety of conditions and you will likely need to schedule an appointment and explain your condition to a physiotherapist, who will perform a physical assessment to determine your treatment plan. We have both male and female physiotherapists available, who have longstanding experience in working with a range of nationalities via embassies.

Our Sponsored Service for Embassy Patients

If your embassy is sponsoring your treatment, please provide a signed letter of guarantee. We will send invoices directly to your sponsor, so you can focus on your physiotherapy. Without a letter of guarantee, you may be asked to settle your own account.
